

Mike Spence MBE

Board Member Profile

Great Britain Wheelchair Rugby

BOARD MEMBER PROFILE

MIKE SPENCE MBE

I have been a member of GBWR's Board of Trustees since 2011 and have been involved in the sport since 1991 in a number of different roles: player, at club and elite level; coach; club committee member and programme facilitator. I have a strong interest in the continued development of the sport in Great Britain and have been involved in the embedding of our Safeguarding procedures over the last few years. I was part of the steering group that created our Level 2 coaching qualification, was involved in creating the programme for injured service personnel that developed into the Invictus wheelchair rugby team and more recently have been involved in our response to UK Sport's funding consultation after Tokyo 2020. I am keen to continue supporting the sport as a Board member.
